

Sorters 40 hours per week

EJL Services BV is looking for sorters. As a sorter you work at the Waste plant where you will need to be able to sort recycle materials such as glass, metal, paper, plastic, etc. from the waste belt. Sorters are responsible to ensure unacceptable materials are removed from recycling so that recyclable materials are ready to be recycled. Sorters may be exposed to unpleasant odors.

Desired Qualifications:

- Able to read and speak the English language well enough to communicate, understand, and respond to questions, instructions, signs, signals and safety measurements.
- Flexible
- Team player
- (Pre) experience with waste activities
- Perform duties in a safe manner in compliance with all local and company policies.
- Inspect materials and sort items or materials into designated areas.
- Pull contaminants out of the recycling material.
- Perform cleaning duties related to plant equipment and general housekeeping.
- Report system problems immediately to the supervisor.
- Maintain an excellent attendance record and an excellent safety and work quality record.
- Other duties as assigned.

Requirements

- Ability to perform physical requirements of the job (prolonged physical exertions including standing)
- Exhibit the ability to distinguish between various recyclable materials.
- Self-starter, aggressive work ethic and ability to work with minimal supervision.
- Safety conscious.
- Ability to work in various conditions.
- Good verbal communication skills to be able to communicate effectively and professionally with other personnel and management.
- Ability to follow written and verbal instructions.

We offer you:

- 40 hours per week.
- A good salary that fits the function
- A package of additional employment benefits.
